

HOW TO FIND THE HOLES IN THE DISPLAY IN WHICH THE ZIP TIE IS INSERTED

Turn the display so the back is facing you. Locate the white handle at the

top of the display. The red arrow is pointing at the display handle. There's also a caption and pointer that says, "Display Handle."

Note the holes in the handle – they are circled in red and labeled "Top Hole" and Bottom Hole. It is through these holes that the tie is inserted.
